**Subject:** Acceptance of Institution of Engineers (India) Graduate Engineers for MS Admission at University of Michigan,Ann Arbor ,USA

Dear Dr. A K Gupta,

It gives me immense pleasure to announce that prestigious University of Michigan, Ann Arbor has approved Institution of Engineers (India) & The Aeronautical Society of India Graduate Engineers for there MS in

Engineering programme.I am glad I could help in bringing about this change in Graduate Admission Board of Rackham Graduate School of University of Michigan which had earlier expressed inability to admit Professional

Institution Graduates from India.Hope it will be of great help in future to all Institution of Engineers (India) Graduates and will prove to be extremely useful for all Engineering students from IE India & AeSI.

Hope you doing very best.

Kind regards

**Bishnujee Singh ,P.E**

Subject: RE: Evalaution of IE India Degree from AACRAO,USA

Dear Bishnujee,  
Based on your recommendation and with the additional information you provided Rackham Graduate School has decided that applicants from The Aeronautical Society of India may be eligible for admission based on their association with the Institution of Engineers. Hence forth all Institution of Engineers (India) and The Aeronautical Society of India Graduate Engineers would be eligible for admission to University of Michigan ,Ann Arbor campus in USA.

If you have any other questions, please let me know.

Best wishes,

Christy Byks-Jazayeri  
Admissions Coordinator and Assistant to Graduate Coordinator
