Dear Sir,

With reference to your letter No. 158/00493 of the 5th instant we do not recognise the passing of your Associate Membership Examination as being equivalent to an Engineering Degree.

For admission as Graduate apprentices we require Candidates to hold a first class degree from one of the recognized Engineering Universities or Colleges. We have many applicants with such qualifications and if any applicants have also passed parts A & B of the Associate Membership Examination of your Institution, the additional qualification is counted in their favour.

Yours faithfully
